Dear Marie:

While this letter is long overdue, please know that it is not for lack of appreciation. The numerous projects you have completed for me have covered the spectrum: tabletop signs, temporary signs and of course your piece de resistance, my business sign. All have been undertaken with the same attitude of thoughtfulness, professionalism and consideration. I can say unequivocally, that every project met or exceeded my expectations. As you know, I recommend you without reservation whenever I have the opportunity and would be happy to share my thoughts with any prospective clients of yours.

Wishing you well until our next undertaking, I remain

Sincerely yours,

Jeffrey A. Boucher
